EXECUTIVE SUMMARY

Assistant Professor of Computer Science with 15+ years of academic leadership and 50+ ISI/Scopus publications. Founder of TRU Protocol (Trusted Relationships for Us) - an open-source standard for trustworthy Human-AI relationships, inspired by Persian principles: Hamghadam (Companionate), Hamrah (Accompanying), Hamfaz (Augmenting), Payeh (Enduring). Founder & Editor-in-Chief of WIOTM Journal. Expertise: Trust Management, Data Mining, AI, IoT in Healthcare, Network Security.

CURRENT VENTURE - TRU PROTOCOL

Founder, TRU Protocol (Trusted Relationships for Us) | Oct 2026 - Present | Tehran, Iran (Remote)

- Founded open protocol with 4 core principles: Hamghadam, Hamrah, Hamfaz, Payeh
- Built MCP Server implementation: check_trust_relationship, get_protocol_info tools
- MIT Licensed, Open Source for global community
- Website: https://drrozitajamilioskouei.github.io/TRU-Protocol/

EDUCATION

- Ph.D. in Computer Science & Engineering - MNNIT Allahabad, India (2008-2012)
- M.Sc. in Computer Science - Jamia Hamdard University, Delhi, India (2005-2007)

- B.Sc. in Software Engineering - Islamic Azad University, Tabriz, Iran (1997-2001)

ACADEMIC EXPERIENCE

- Assistant Professor, Islamic Azad University, Mahdishahr Branch, Semnan (Mar 2016 - Present)
- Teaching: Network Security, Distributed Systems, IoT, Multimedia. Supervised 20+ MSc theses.
- Curriculum development in IoT & Network Security.
- Assistant Professor, IASBS, Zanjan, Iran (Jul 2013 - Feb 2016)
- Taught AI, Multi-Agent Systems, Graph Theory, Algorithms. Graduate curriculum design.

RESEARCH FOCUS

- Trust Management & P2P Reputation | Data Mining & Web Mining | AI/ML & Deep Learning
- IoT & Digital Health | Social Network Analysis | Network Security & Privacy

SELECTED PUBLICATIONS (Top 10 of 50+)

- TCDABCF: Trust-Based Community Detection Using ABC - Mathematical Problems in Engineering, ISI (2021)
- An optimal method for URL design - Social Network Analysis and Mining, JCR IF 1.51 (2018)
- Detecting Broken Path in VANET Using UAVs - Wireless Communication & Mobile Computing, IF 1.819 (2020)
- Density-Based Clustering Approach for Desertification - WCMC (2021)
- Employing Deep Learning and Time Series Analysis for Forecasting - Security & Comm Networks (2021)
- Framework for Educational Domain-Based Multichatbot Communication - Scientific Programming (2021) Full list: ORCID 0000-0001-7162-9373 | Google Scholar

BOOKS & EDITORIAL LEADERSHIP

- Internet of Things - From Hype to Reality (Translation) - Hableroud Publications (2021)
- Protocols, Platforms and Applications in IoT (Author) - Hableroud Publications (2022)
- Big Data Analytics in Future Power Systems (Translation, in press 2025)
- Founder, Owner & Editor-in-Chief: WIOTM Journal (www.wiotm.ir)
- Associate Editor: IJISA, CDAI, IJCIS | Reviewer: SNAM (Springer), IEEE, Elsevier Fuel
- Technical Program Committee: WSWAN, ICBIC, ICON

TECHNICAL SKILLS

AI/Data: Python, RapidMiner, Weka, MATLAB, Power BI | Web: WordPress, HTML/CSS | Research: LaTeX
